### Key Considerations:

- Choosing a Solicitor with experience in supporting both Dental Business and Commercial transactions proves invaluable to the timeliness, smoothness and success of your sale/purchase
- A Solicitor's expertise and experience in dealing with CQC, NHS, Healthcare lending and the contracts associated to a dental practice are critical considerations when choosing your legal representation
- Remember that your solicitor does not need to be local to either you, or the practice you are looking to sell/purchase. All the above offer national services
- We receive no financial incentive for recommending Solicitors and cannot accept any liability for your choice of Solicitor. We recommend you carry out your own due diligence and research and find representation that fulfils your personal requirements/preferences
